

90% Funding* For CAD/CAM/CAE Training Courses

Develop Product in Virtual Environment - Basic

- Module Code: PE-MPT-310E-1
- Training duration: 8 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. Essentials for NX Designers
 2. NX Drafting Essentials

Develop Product in Virtual Environment – Intermediate

- Module Code: PE-MPT-311E-1
- Training duration: 4 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. NX Intermediate Design & Assemblies

Perform Design Verification Using Simulation – Basic (For Analysts)

- Module Code: PE-MPT-306E-1
- Training duration: 6 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. ANSYS Workbench – DesignModeler
 2. ANSYS Workbench – Meshing Application Introduction
 3. ANSYS Workbench Mechanical – Introduction

Apply Integrated Machining Technologies – Basic

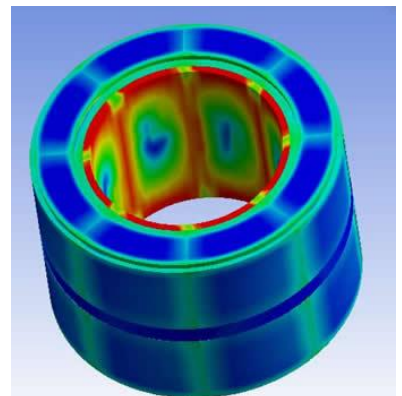

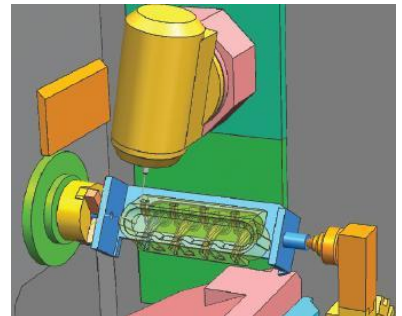

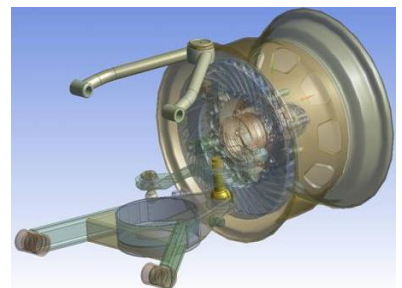

- Module Code: PE-MPT-307E-1
- Training duration: 4 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. NX Manufacturing Fundamentals

Apply Integrated Machining Technologies – Intermediate

- Module Code: PE-MPT-308E-1
- Training duration: 3 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. Fixed Axis Techniques

Apply Integrated Machining Technologies – Advanced

- Module Code: PE-MPT-309E-1
- Training duration: 3 x 8hrs sessions
- Training dates: to be confirmed
- Module comprises of the following training courses:
 1. Multi-Axis Techniques
