In addition to class-leading general purpose mechanical analysis products, ANSYS provides specialized structural and hydrodynamic capabilities for the marine and offshore industry, including code checking within an add-on module for ANSYS Structural Mechanics products.

The aim of this workshop is to create awareness amongst ANSYS users and people who interested the Marine and Offshore industry to demonstrate the capabilities of ANSYS solution including ANSYS SpaceClaim.

Who should attend?

- R&D engineers / Engineering manager from the Marine, Oil and Gas industry
- Engineers who wants to know about what ANSYS can do for them

Presenter profile:

He Yawei joins CAD-IT in October 2015. He is currently working on two Masters degrees, from NTU and Wuhan University of Technology. Prior to joining CAD-IT, he worked as a design engineer in a shipyard for 4 years. He is currently an Applications Engineer, focusing on customised service for MOG industry and ANSYS Multiphysics (Mechanical +Fluid+ Acoustic).
