

Ever wished you had thought it through?

Exclusive Seminar on Design and Manufacturing Solutions in Penang

The key to manufacturing efficiency and profitability lie in risk management through design. If you ever wished you had thought it through before filtering your processes down the supply chain, attending this seminar will be a good start.

As markets get increasingly competitive within the Electronics PCB design and manufacturing sphere, reduction of time-to-market, enhancement of quality and

cutting wastage become three of the most important industrial concerns in the business.

In conjunction with Mentor Graphics through Asia's leading Product Life Cycle (PLM) and education provider, CAD-IT Consultants Malaysia is proud to bring you a special one-off complimentary seminar on the challenges facing the electronics manufacturing industry today, specific to the market in Penang, and how viewing product development as a continuum can help to address these three fundamental industrial challenges.

Borrowing on Mentor Graphics' Valor suite of design and manufacturing solutions, participants will learn about how these suites can benefit their business from PCB design, manufacturing, assembly and test process perspectives for a truly end-to-end development flow.

Seminar Topic

Challenges for the Electronics Industry in Penang and Optimising Manufacturing and Design through Total Solutions Planning

Seminar Synopsis

<p>1. Overview of the Electronics PCB Industry in Penang and its current challenges</p> <p>2. The importance of a seamless manufacturing process - design, fabrication, assembly, manufacturing</p>	<p>3. Introduction to the Mentor Graphics Valor Suite - vSure, vPlan, vManage, vCheck</p> <p>4. Question & Answer Session</p>
---	---

Seminar Agenda

Date	: 1 December 2011
Time	: 10am to 2pm
Venue	: Penang Skills Development Centre (PSDC)
	1 Jalan Sultan Azlan Shah Bandar Bayan Baru Bayan Lepas 11900 Penang

Presenter Profile

Mr Naveen Prasad is a seasoned expert in the PCB design and consultancy field, having been analysing, troubleshooting and offering design solutions for Electronics manufacturing companies since 2004.

An accomplished trainer for production and DFM engineers on the deployment of automation tools, his career has brought him to China and Europe for the knowledge transfer of PCB manufacturing and design. Mr Naveen's expertise on PCB design rules and schematic drawings for CAD has seen him work on a variety of projects, in turn acquiring a range of software skills including Graphiccode, Cadence Allegro, DxDesigner, Expedition PCB and Hyperlynx.

His extensive experience in medium-and-large Electronics corporations in Perak, Selangor and Penang has brought him to Asia Printed Circuit Sdn Bhd, Flextronics Technology Shah Alam and Kontron Design Manufacturing Services Sdn Bhd as a DFM Support Engineer and Layout Design Engineer. Mr Naveen is now a full-time trainer and specialist PCB consultant on Mentor Graphics' Valor suite of Electronics manufacturing solutions for CAD-IT Consultants (Asia) Pte Ltd.

Register online for this complimentary one-off seminar [here](#).

Seats are limited and allocated on a first-come-first serve basis.
Please book your place early to avoid disappointment.
