

ANSYS TECHNICAL CLINICS

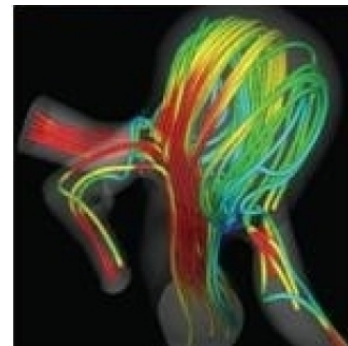

Introduction

CAD-IT invites you to attend our monthly ANSYS clinic. Attendance is free of charge. The clinics will focus on five broad categories of simulation-related problems: geometry preparation (and meshing), mechanical analysis, computational fluid dynamics (CFD) analysis, low-frequency electromagnetic analysis and high-frequency electromagnetic analysis

Clinic Objectives

Customers who are experiencing difficulties in using ANSYS software (e.g. modeling, pre- / post-processing and solving) to solve their problems are encouraged to attend this clinic to improve their software skills, acquire additional knowledge and maximise proficiency. Engineers are encouraged to bring their model / project files and any data that would make their consultation meaningful and productive.

Clinic Dates for May & June 2017

Name	Date	Time
ANSYS CFD Clinic	12-May-2017	9 am to 12 pm
ANSYS Geometry Preparation Clinic	02-June-2017	9 am to 12 pm
ANSYS High-frequency Electromagnetics Clinic	02-June-2017	9 am to 12 pm
ANSYS Mechanical Clinic	09-June-2017	9 am to 12 pm
ANSYS Low-frequency Electromagnetics Clinic	23-June-2017	9 am to 12 pm

REGISTER HERE

Customers must have a valid and active ANSYS maintenance agreement with CAD-IT. Please register using the button above and tell us the simulation-related problem you have. Walk-Ins are welcome.

Important Note

These clinics are not meant to be training courses or workshops. No training materials will be provided. CAD-IT will only assist customers to solve their simulation-related problems in relation to the use of ANSYS software and will not hand-hold customers to complete their projects. Customers should bring along any files or materials they need clarification on
