Amplifying Engineering

ANSYS 14.0 Update Seminar

9 May 2012, MaTIC, Kuala Lumpur

Realize Your Product Promise™

Introduction

The advanced technology behind ANSYS 14.0 includes hundreds of new, advanced features that make it easier, faster and less costly for organisations to bring new products to market. The framework for the industry's broadest and deepest suite of advanced engineering simulation technology, ANSYS Workbench, delivers unprecedented productivity. Tighter integration brings more physical applications together to power customers' simulation efforts, enabling them to predict with confidence that their products will thrive in the real world.

In this complimentary seminar, CAD-IT Consultants (M) Sdn Bhd will share exactly why the latest ANSYS release deserves to be noticed. Along with new features in geometry and meshing, mechanical and computational fluid dynamics updates will also be presented by our application experts. If you are an existing ANSYS user or simply wish to find out more about new features in ANSYS 14.0, this seminar is a must-go.

New Benefits in Three Major Areas :

- **Amplifying Engineering**
Companies are looking for ways to leverage their existing engineering resources. ANSYS 14.0 automates many user-intensive operations, helping product developers minimize time spent setting up problems.
- **Simulating complex systems**
Today's designs often combine hardware, electronics and software to form a complex system, hence requiring new approaches to engineering. The latest ANSYS release allows engineers to simulate such complexity as it exists in the real world, with uncompromising accuracy.
- **Driving innovation with high-performance computing (HPC) and Engineering Knowledge Manager (EKM)**
Competitive pressures demand faster and more frequent product introductions. At the same time, products must be innovative, desirable and high quality. ANSYS 14.0 capitalizes on modern hardware advancements to deliver complex simulation calculations faster than other alternatives.

Agenda

0930	Registration and Refreshment	1325	Sponsor Presentation – Dell
1000	CAD-IT Welcome Address	1345	ANSYS Fluid Dynamics Solutions
1015	ANSYS Preprocessing Solutions	1445	ANSYS Productivity Solutions
1115	ANSYS Structural Mechanics Solutions	1530	Q & A Session, Wrap Up
1215	Lunch	1600	Close

* CAD-IT reserves the right to modify the agenda without prior notice.

Seminar Information

Date	: 9 May 2012 (Wednesday)
Time	: 9.30 am – 4.00 pm
Venue	: Mini Auditorium Hall, Malaysia Tourism Centre (MaTIC) 109, Jalan Ampang, 50450, Kuala Lumpur, Malaysia (view map)

This seminar is **FREE!** As seats are limited, please register early to avoid disappointment. Click [here](#) to register.

For enquiries, please email caditevents@cadit.com.sg .

About CAD-IT Consultants

Formed in 1991, CAD-IT Consultants (Asia) Pte Ltd is a leading **ISO 9001:2008** certified PLM and education provider in Asia providing world-class solutions that enable companies to achieve greater product innovation, quality and productivity with reduced lead time and costs. Our priority is in building mutually successful and long term partnerships with our customers and partners.

CAD-IT has received more than 60 International Awards for marketing/ service excellence. Among its most recent accolades are the Asia Pacific Entrepreneur Award (APEA) - Outstanding Entrepreneur Award 2010, APEA Most Promising Entrepreneur Award 2009, the Singapore Prestige Brand Award (SPBA) - Established Brand Award 2011, 2010 and 2009, and the Singapore SME 1000 Company in 2011.

CAD-IT Consultants' suite of PLM solutions include ANSYS (Multiphysics FEA/CFD), Enight (Extreme Visualization), Goldfire Innovator (Innovation Process Management), Cortona3D (3D Technical Documentation), SpaceClaim (3D Direct Modeler), Mentor Graphics Valor DFM & Valor MSS (Complete Manufacturing Execution Suite), Stampack (Sheet Metal Forming CAE), Rheoware (Blow-moulding and thermo-forming), DEFORM (Bulk Metal Forming CAE) and Autodesk Moldflow (Plastics CAE).

Since February 2010, CAD-IT is honored to partner the Singapore Workforce Development Agency (WDA) to offer Advanced Certificate courses in PLM and Engineering Simulation, under the Workforce Skills Qualifications (WSQ) framework, with the charter to upgrade the technological capabilities of organizations in Singapore so as to enable them to undertake higher value-added design, engineering, manufacturing and R&D activities. From July 2010 to December 2011, CAD-IT has trained over 200 engineering professionals in WSQ courses.
