

A Sea of Opportunities: CAE for the Oil & Gas and Marine/ Offshore Industries

Challenges

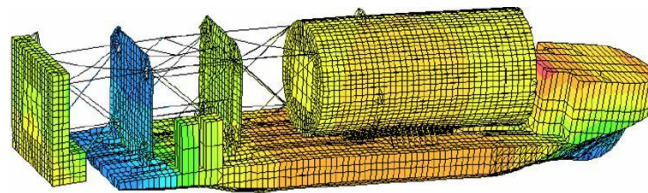

Few industries are burdened with more uncertainty or risk than Oil & Gas, as there is a wide variety of challenges, **from exploration to production to delivery**. Likewise, the Marine/ Offshore industry is facing the daunting challenge to **develop and produce new designs of mobile offshore structures at an accelerating pace**. This is where computer aided engineering (CAE) can play a vital role.

Solutions

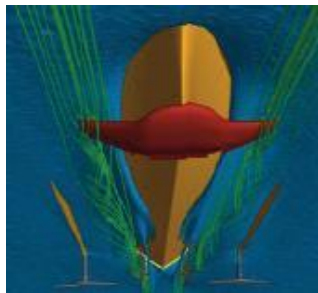

Offering unequalled depth and unparalleled breadth of engineering simulation, solutions from ANSYS, Inc. enable companies in the Oil & Gas and Marine/ Offshore industries to establish a niche and to stay ahead.

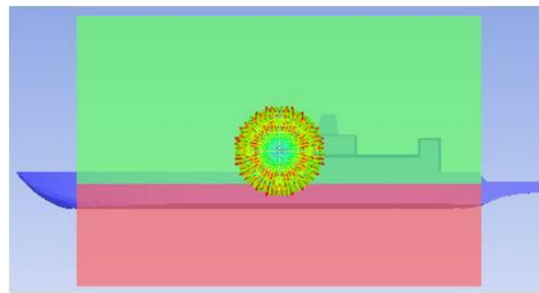

Structural Analysis

Hydrodynamics Analysis

Fluids Analysis

Explicit Analysis

Agenda

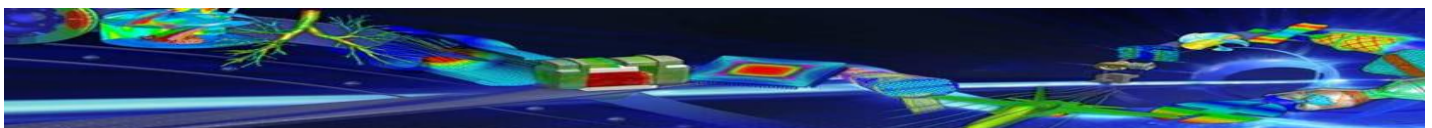

- ▶ Industry Outlook
- ▶ The ANSYS Advantages
- ▶ ANSYS Applications for the Oil & Gas and Marine/ Offshore Industries
- ▶ Networking session

Seminar Information

Date : 27th January 2011, Thursday
Time : 9.30 am - 12.00 pm
Venue : CAD-IT Training Centre
159 Sin Ming Road, #03-05 Amtech Building, Singapore 575625 ([view map](#))

This seminar is **free**. To register, please go to http://www.cadit.com.sg/CADITEvents_Main/caditseminars.aspx.

For enquiries, please contact Mr. Chiang Hong Keat at (65) 6508-7570 or hongkeat.chiang@cadit.com.sg.
